

Garden Committee Report

June 2021

Members	Alison Jay	17
	Janet Parrott	23 until March 2021
	Claude Perera	18
	Nadine White	15

There is little to report this year. Work to renovate the entrance to CG, the roadside bed and the area to the side of 23 that Seasons were scheduled to carry out last year still hasn't happened.

The *Crataegus lavalleei*, a replacement for the felled dead Hawthorn by No 1, some lavender by No 21 and a few euphorbias by the bench were planted but that is all.

I see the gardeners most weeks and they are keeping on top of maintenance well. However it has been difficult to get Seasons to carry out any new planting, too busy and shortage of plants being the reasons I've been given by David Hollick. It is 15 months since we accepted Seasons plan for the entrance etc. so the quote will be out of date. I think the plans should be reviewed and new quotes obtained.

The areas behind 16-18 are overgrown and in need of improvement.

With Seasons being so busy would it be worth seeking other gardeners who could take on some improvement projects?

Janet contacted Jack Hansell about the tree branches overhanging her roof last year but had not heard back from him before she moved. If you see a tree that looks in need of pruning or you have branches over your roof that need cutting please let us know.

The hosepipe for the communal gardens is stored in garage No 1. Volunteers to help with watering during dry spells would be welcome. If you wish to use please contact Dick Hewson on 07740 122017.

Would any one like to join us on the committee? We would really appreciate having another member or two.

Nadine on behalf of the Garden Committee
