1. Works : Seasons are able to assess the damage to the drainage system in front of No.22 which serves more than one house. It was agreed that they should be asked to assess and repair assuming the cost is reasonable. They are unable to give a definite estimate until the problem has been investigated.
2. Garden: There was an update from the garden group and a date will be fixed for an EGM to decide on the matter of management of the plane tree.
3. Painting

Preliminary feedback on painting was discussed and it was agreed that the same EGM could be used to decide whether to defer the painting until 2017 .
